

Difficult diseases have met their match.

Volunteer Newsletter

Winter 2026

*Thank!
You!*

Thank YOU for making discoveries possible!

ResearchMatch continues to exist because of volunteers like you! YOU play an important role in furthering healthcare research, and we thank you!

Since the start of this platform in 2009, more than 8,000 studies have been registered on ResearchMatch, and with your help, many have resulted in the publication and sharing of scientific discoveries and findings.

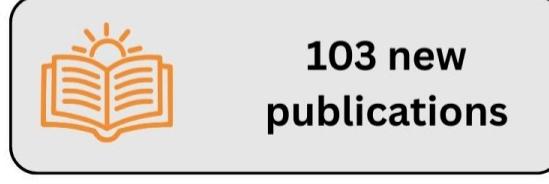

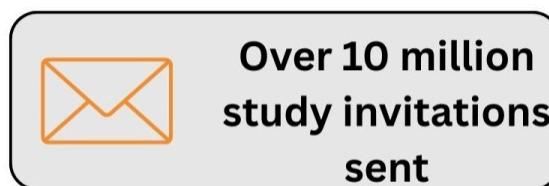

We encourage you to learn more about why your participation is so important and to help spread the word about the importance of healthcare research. Some ideas include:

- Encourage your friends, family, and neighbors to join ResearchMatch as a volunteer.
- Use the “[Tell a Friend](#)” feature on your Volunteer dashboard to easily tell someone about ResearchMatch.
- Like, follow, and share ResearchMatch on [Facebook](#), [Instagram](#), and [X \(formerly Twitter\)](#).
- Visit our [Why Research?](#) page to learn more about why research is important.
- Share resources on clinical trial participation from trusted sources like the [National Institutes of Health](#) and the [National Institute on Aging](#).
- Visit [Trials Today](#) and search for trials that may be of interest to you or a loved one.
- Learn more about our platform, researchers, community collaborators, and participating in research by visiting our website to find articles, videos, and more!

With over 1,400 studies currently looking for volunteers on ResearchMatch, we’re excited for all the discoveries waiting to be made in 2026. Make sure to keep your user profile up to date so that you can be matched with studies that are most relevant to you. When it comes to ensuring a healthier future for all, let’s all say “Yes, I’m interested!” and become part of the solution for a better tomorrow.

-The ResearchMatch team

2025 - A year in review

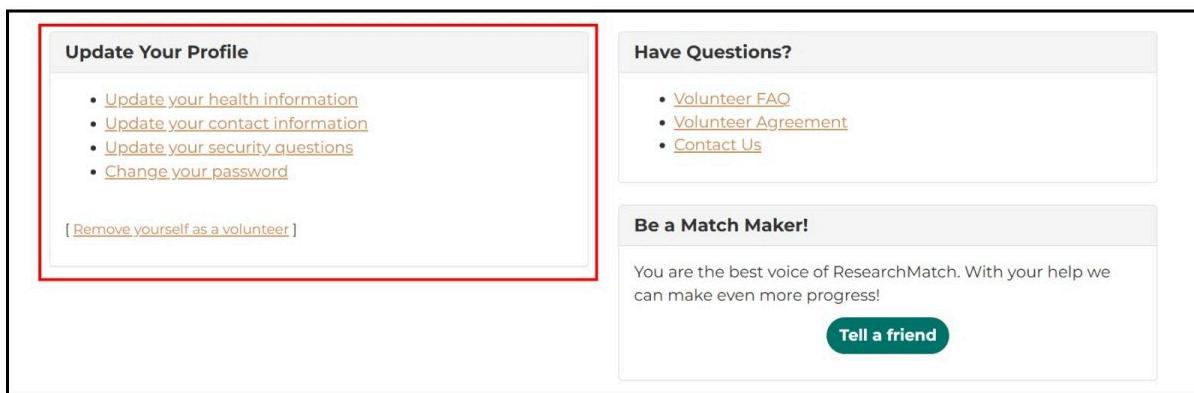

Updating your Volunteer profile for 2026

Would you like to add a new health condition or remove an old one? Did you stop taking a medication or start a new one? You can easily update this information on your Volunteer Dashboard.

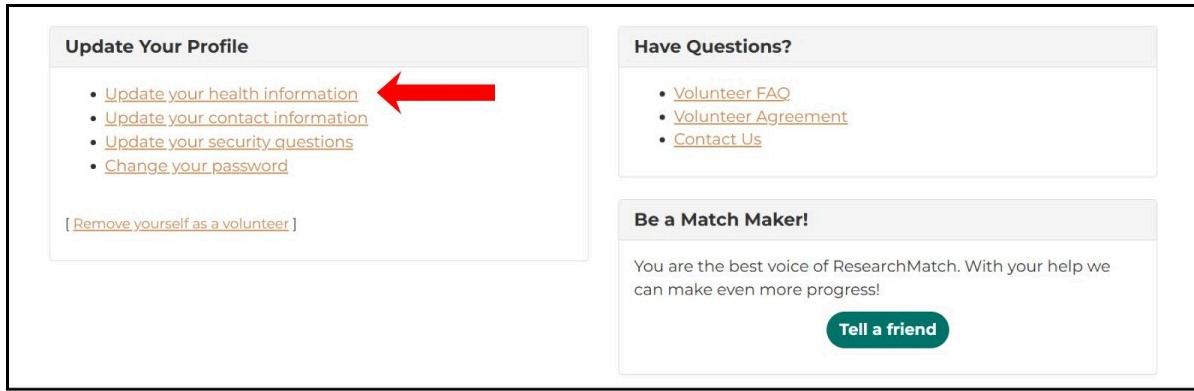

ResearchMatch strives to connect you with research studies that matter to you! To help make these connections, start the new year off by updating your Volunteer profile with any new health conditions or medications and demographic information.

Update the information in your Volunteer Dashboard by following the steps below:

The screenshot shows the ResearchMatch Volunteer Dashboard. On the left, there is a red-bordered box containing the 'Update Your Profile' section. This section includes a list of links: 'Update your health information', 'Update your contact information', 'Update your security questions', and 'Change your password'. Below this list is a link '[Remove yourself as a volunteer]'. To the right of this box is a 'Have Questions?' section with links to 'Volunteer FAQ', 'Volunteer Agreement', and 'Contact Us'. Further down is a 'Be a Match Maker!' section with a message: 'You are the best voice of ResearchMatch. With your help we can make even more progress!' and a 'Tell a friend' button.

Step 1: Log into ResearchMatch and scroll down to “Update your profile”.

The screenshot shows the ResearchMatch Volunteer Dashboard. A red arrow points to the 'Update your health information' link within the 'Update Your Profile' section. The rest of the interface is identical to the first screenshot, including the 'Have Questions?' and 'Be a Match Maker!' sections.

Step 2: Click “Update your health information” to open your Demographic Data page. Use the menu on the left-hand side and click on “Conditions” or “Medications”.

Tell us about your health conditions

Have you been diagnosed with a health or medical condition?

Yes
 No

Start entering the name of a single condition in the box below. Once a condition has been found using the search please make sure you select the condition so that it appears in the list below. You may enter in as few or as many conditions as you like.

Search for conditions:

Step 3: Begin typing into the search bar and ResearchMatch will automatically list all the options available in our system. Select the one that matches your condition or medication and click the “Add” button.

Step 4: Click the “Save and continue” button at the bottom of the page to save your changes.

Tell us about yourself

Demographic Data	Date of birth	Height (ft)	Height (in)	Weight (lbs)
Race and Ethnicity	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Conditions	<input type="text"/>			
Medications	<input type="text"/>			
Account Preferences	<input type="text"/>
